HIGHLIGHTS
REPORT · 2019

GOVERNANCE

- We continued implementing our Sustainable Business Model, through the sale of our two cogeneration plants. This brought both economic and environmental benefits that will allow us to continue on our path to be a more sustainable company.

ENVIRONMENT

- More than USD \$15.5 million invested in environmental actions.
- ENERGY: 76,081 GJ saved in ordinary processes.
- EMISSIONS: 24,209 tons of CO₂eq, equivalent to having planted 621,000 seeds growing in a 10-year period.
- WATER: More than 1,800 Megaliters recovered and used in our processes.
- RECYCLING: We processed a total 99,100 tons of bottles and produced 62,700 tons of rPET.
- WASTE: We are silver funding partners of The Recycling Partnership in US, generating policies through the program “The Circular Economy Accelerator”.

EMPLOYEES

- More than USD \$70,000 invested in work-family balance activities.
- 400 scholarships granted in external academic institutions.
- 258 scholarships granted to employee's children.
- More than USD \$20 million invested in programs, initiatives and equipment for the betterment of the health and safety of our employees.

COMMUNITIES

- More than 4,500 students from 32 schools received in cash or in-kind support.
- 45 signed research agreements with universities and 98 students completed their internships in our facilities.
- 380 employees invested an average of 3 man-hours or more in volunteer activities.

VALUE CHAIN

- We offer technology and consulting services in the field of PTA and PET manufacturing, polymer processing, industrial design services, and licensing of intellectual property.
- Product Stewardship program has the goal of continually improving the process of evaluating, assessing, and communicating the safety of our products.
- 67% of our suppliers came from the communities we operate.
